

MEMORANDUM

TO: Parents and Guardians
FROM: Green Chimneys Health Center
RE: Update Regarding Cluster Action Initiative
DATE: 10/9/2020

Earlier this week, Governor Cuomo announced his plans for a Cluster Action Initiative which will help to prevent the spread of COVID in schools and communities. Communities that are identified as having a high cluster of positive cases and the communities that surround them, will be categorized in either a red, orange, or yellow zone.

If your community is in a **red** or **orange** zone and your home school district has been closed, please keep your child home until the restriction has been lifted.

We are asking for your cooperation to stay informed about your community's status.

The school will make arrangements to set up remote learning for your child.

For more information on the Cluster Action Initiative please visit:
